## Volker Minkenberg, CAD-Design Engineer

We are very pleased to announce that as of 15th January 2008 Volker Minkenberg has joined Digatron Aachen as CAD Design Engineer.

Volker will join the Digatron design group in Aachen. He will be responsible for all the necessary technical documentation required for the production of our equipment, e.g. wiring and circuit diagrams, flow charts, bill of materials, etc. He will work with AutoCAD and E-Plan.

Volker Minkenberg was born on 6th March 1976 in Linnich/Germany.

Volker started his professional life with an apprenticeship in radio and television techniques. After finishing this he started studying for an engineering degree in electro technology at the University of Aachen.

In April 2007 he received his Bachelors Degree in Electro Engineering.

During his studies he worked as student assistant and was involved in a wind energy project. In his first job as an engineer he gained experience in CAD design and project planning.

He spends his free time by playing soccer.
